

## BHP Billiton Confined Space Audit

### PROJECT LOCATION

Pilbara Region, Western Australia

### PROJECT CLIENT

BHP Billiton Iron Ore

### PROJECT SUMMARY

In support of the implementation of the BHP Billiton corporate G57 HSE guideline for confined spaces, SRA were contracted to provide two main services. Firstly, to assist in the development of new confined space procedures and secondly to conduct an audit of confined spaces at seven main locations in the Pilbara Region of Western Australia. The audit information was for comprehensive confined space registers that include both ventilation and rescue plans.

Conducted during 2007, more than 1500 spaces were evaluated and documented.
