

BHP Billiton Olympic Dam

PROJECT LOCATION

Olympic Dam, South Australia

PROJECT CLIENT

BHP Billiton Olympic Dam

PROJECT SUMMARY

Following a period of ad-hoc delivery of training services to BHPB OD, in 2007 Safety & Rescue were awarded a two year contract for the provision of safety related training to BHPB employees and contractors at Olympic Dam.

Training and assessment services cover twenty-two specific courses, including work at height, confined space entry, isolations, management of hazardous areas, breathing apparatus and rescue.

SRA have also provided specialist support to BHPB OD in the implementation of a number of BHPB corporate 'Fatal Risk Control Procedures' (FRCP), including procedures design and development.
